

Testing the CENS Mino electronic hearing protection.

Usable straight out of the box, and featuring state-of-the-art CENS digital technology, the new Mino CENS offers shooters an affordable way to experience comprehensive CENS digital electronic hearing protection. Effectively suppresses

gunshot noise, boosts ambient sounds, hear conversation as normal, no gun mount interference and universal fitting.

Mino CENS universal electronic ear plugs are specifically designed to fit into any ear without the need for ear impressions or a custom-made earmould, and like full CENS Proflex, also still allows for clear communication as well as enhanced ambient awareness. When a gunshot is fired, the electronic circuit instantly suppresses the loud noise, protecting your hearing! Mino CENS are supplied with 5 different sized high quality foam ear tips, providing an effective and comfortable universal fit wearing experience. This can then be enhanced even further by purchasing custom-made eartips at a later date.

SA Wingshooter tested these at the recent Rooikraal Steel Mania Multi-Gun match, as well as at the LRSC match held on 22 September. These Mino's really are worth it! Easy to fit, easy to operate, small and most importantly – comfortable all day long. Will recommend these any day! For more info go to: www.censdigital.co.za
